RE: Chemist

Dear Mr. Pérez

As an accomplished and motivated professional, I was compelled to contact you with my interest in the Validation & Engineering Group, Inc. position. I completed my Bachelor's degree in Chemistry at the University of Puerto Rico, Humacao. I have 5 years of experience in Chemical Laboratory Equipment Validation. I have the necessary qualifications for this job. I am an excellent candidate for this position.

I bring a combination of skills and talents which I have developed through a lengthy and rewarding career. I am well-versed in the courses I have taken throughout my career, I have Knowledge in USP/NF, standard methods, and environmental policies. (IBC, OSHA, ACGIH, NIOSH, etc.). Knowledge of Analytical Chemistry processes and laboratories computer system, I have a lot of experience in this. Including Chemical Laboratory applicable regulations and guidelines, list of all analytical test, and safety considerations. I can work irregular hours, rotating shifts, weekends, and holidays.

I want to join to work with you and with the rest of the team. During my career I have learned to work in different scenarios and with different specifications and conditions. In this way I learn about conditions versus design and technical specification. For these reasons I am the right candidate for this job, because I have technical specification, and industries standards. I am professionally educated, I am at your disposal I hope to receive an email soon. I am excited to discuss the possibility of join team. Please feel free to contact me for additional details of my qualifications and background. I look forward to hearing from you at your earliest convenience. Thank you for your time and consideration of my candidacy.

Sincerely,  
Luz Marie Rodríguez
